ADELAIDE CONVENTION CENTRE, ADELAIDE, SOUTH AUSTRALIA, AUSTRALIA
This brochure sets out the program and other information for the 48th Annual Scientific Meeting of the Australasian College of Dermatologists in Adelaide. Also included are the programs for the satellite meetings of the Australian Dermatology Nurses’ Association and the Australasian Society of Cosmetic Dermatologists.

The convenors of the meeting are Dr Karen Koh, Dr Priya Selva-Nayagam and Dr Sachin Vaidya. The South Australian Faculty, on behalf of the College, welcomes Fellows, trainees, students and other medical professionals to the meeting.

The Annual Scientific Meeting program incorporates major changes to the meeting previously adopted by the College. The meeting is now of four days’ duration, commencing on Saturday and finishing on Tuesday; and there are concurrent sessions with the Australasian Society of Cosmetic Dermatologists and overlapping with both the Australian Dermatology Nurses’ Association meeting and the meeting of the Australasian Society for Dermatologic Research. This offers you a variety of choices.
I am particularly delighted to welcome our overseas speakers:

- Professor Marcus Maurer, Professor of Dermatology and Allergy and Director of Research at the Department of Dermatology and Allergy, Allergie-Centrum-Charite, Universitatsmedizin, Berlin, Germany.
- Professor Albert C. Yan of the Children’s Hospital of Philadelphia and the Perelman School of Medicine at the University of Pennsylvania, Philadelphia, Pennsylvania, United States of America.
- Professor Amit G. Pandya from the Department of Dermatology at the University of Texas South-Western Medical Centre in Dallas, Texas, United States of America.
- Dr John G. Albertini, President of the American College of Mohs Surgery and the Wake Forest University Department of Plastic and Reconstructive Surgery, Winston-Salem, North Carolina, United States of America.

Sponsored speakers who will participate in sponsored sessions are:

- Dr Jeremy B. Green, a cosmetic dermatologist who is an Assistant Professor in the University of Miami Department of Dermatology, Miami, Florida, United States of America. Dr Green’s participation is made possible by an unconditional grant to College by CUTERA.
- Professor Thomas Luger, Director and Chairman of the Department of Dermatology at the Westfalische Wilhelms-Universitat in Munster, Germany. Professor Luger’s participation is made possible by the generous support of LA ROCHE-POSAY.
- Dr Emil Tanghetti, a US Board-certified dermatologist specialising in laser medicine and surgery. Dr Tanghetti’s participation is made possible by the generous support of Cynosure.
- Professor Eggert Stockfleth, Director of the Skin Cancer Centre, Charite–University Medical Centre, Berlin, Germany. Professor Stockfleth’s participation in the meeting is made possible by the generous support of MENARINI.

Overseas speakers in the program for the Australasian Society of Cosmetic Dermatologists are:

- Dr Christoph Martschin, a senior consultant dermatologist in medical and aesthetic dermatology in Sweden.
- Dr Torsten Walker, a dermatologist from Germany whose practice has an aesthetic focus. Dr Walker’s participation in the meeting is made possible by the generous support of VERZ AESTHETICS.

I am very pleased that the meeting has been strongly endorsed by the pharmaceutical and allied health industries, both as sponsors and as trade exhibitors. I invite all delegates to visit the displays in the trade exhibition, to meet the industry representatives and to learn about new developments in products and services. The College and its members strongly rely on the support from our industry partners in ensuring that our patients are offered optimal management with the latest advances in medical and surgical treatment.

The College meeting could not be successful without the generous sponsorship we receive from many companies. I thank our sponsors, who are listed in this program, for their loyal support.

I hope you will find this meeting a most worthwhile and enjoyable experience.
